### **The day a spaceship landed in front of our school**

On the last day of school before Christmas something crazy happened. I was sitting at school, being bored, when a loud noise could be heard. I looked out of the window and saw a tiny UFO crashing into the ground.

After alerting the teacher that something had happened, we went outside. As we walked to the mysterious thing, two creatures jumped out. A girl screamed and we ran into safe distance, but then a calming voice told us that we did not have to be scared. The voice came from the hole the UFO had made into the ground and two aliens emerged from it. But then three helicopters landed in front of us and some armed policemen stormed out of them. They picked everyone up and took us with them into the helicopters and flew away.

The next thing I knew is that I was lying in bed and being told, that I had a nightmare. But I know it was not a dream, it was real, because there is still a hole in the ground and the traces of the helicopters in front of our school. I will never forget this experience!
